To Whom It May Concern,

I worked with Skidmore Builders several years while I was employed by Bell South. They exhibited unequalled professionalism and honesty. I personally had a lot of interaction with Jeff and Tommy Skidmore. They were very sensitive to service and safety. They realized our customers expected the very best service and they did not want to do anything that would give them anything less. They were also flexible to our work schedules. They were willing to listen to our concerns if a difference of opinion arose and we were always able to come to a solution that was best for the customer.

Should you wish to talk to me, I can be reached at 803-664-7227 (H) or 704-858-0922 (C).

Respectively,

B. J. Alt
